AUGUST 30, 2010

Mini-Med Update

Our August 23rd post discussed the status of the mini-med waiver program. This program will allow mini-med sponsors to apply for a waiver from the annual and lifetime limit requirements prior to January 1, 2014. We understand that the issuance of the waiver program requirements is imminent and the guidance may come as early as this week. We will let you know as soon as it is released.
