United States Securities Laws Implications of Corporate Restructurings

Reorganizing Failing Businesses

AUGUST 1, 2017 Written by Aaron L. Hammer

The American Bar Association published the third revised version of its widely acclaimed treatise, *Reorganizing Failing Businesses*. The publication included a chapter entitled, "United States Securities Laws Implications of Corporate Restructurings," which Aaron Hammer co-authored with other nationally recognized insolvency specialists. The treatise analyzes key situations from the perspective of the varied constituencies within a restructuring process and application of the bankruptcy code in that context. The treatise also details how bankruptcy laws interact with a variety of other legal disciplines including federal securities laws, intellectual property, antitrust, tax, health care, and environmental laws.
