Technology

Ryan Strauss is a registered patent attorney with extensive experience in patent preparation, prosecution, portfolio management, invention harvesting, and claim strategies targeting competitor products and technical standards.

Ryan has prepared and prosecuted hundreds of U.S. and international patent applications across a broad range of technologies including wireless communication, edge and cloud computing, artificial intelligence (AI) and machine learning (ML), autonomous vehicles, medical devices, wearables and sensor devices, augmented reality and virtual reality technologies, and blockchain and cryptocurrencies/NFTs, among many others.

Prior to joining the firm, Ryan practiced as of counsel at a boutique intellectual property firm in New Jersey and as a shareholder in a Pacific Northwest law firm, where he focused on software and hardware patent prosecution.
