Asset Creation - Prosecution & Counseling

Intellectual Property

Patents

### Industries

Health & Life Sciences

Medical & Surgical Devices

Jose V. Luna focuses his practice on intellectual property, with a particular emphasis on patent prosecution in technologies relating to chemistry and life sciences.

Prior to joining the firm as a CLS attorney, Jose worked as an attorney for a top-ranked intellectual property law firm in the Silicon Valley where he drafted patent applications relating to social networking and internet technology, data processing, content management, data mining, machine learning, web analytics and business methods. Jose was also a legal consultant at a San Francisco Bay Area biotech company specializing in the development and commercialization of biological markers for early detection of metabolic diseases, where he provided federal and state regulatory compliance counsel and patent due diligence analyses. Jose was previously a summer associate and paralegal with the firm, gaining broad experience in patent prosecution, patent litigation and complex commercial litigation. Prior to entering the legal profession, Jose was a research assistant with an environmental physiology lab at UC Berkeley where he investigated the effects of environmental conditions on physiological processes.

While attending law school, Jose received the Moot Court award for Best Brief and CALI and Witkin Awards for academic excellence.
