Services

Litigation
Complex Commercial Litigation

Sasha Mohammad focuses her practice on complex commercial litigation matters.

Prior to joining the firm, Sasha worked as an associate at a litigation firm based in Dallas, Texas where she represented clients on both sides of the docket in a variety of commercial litigation matters. Previously, she was a staff attorney in the Houston, Texas office of a national litigation firm where she conducted legal research and managed the discovery phase of litigation.

While attending law school, Sasha served as a scholar for the Robert B. Rowling Center for Business Law & Leadership and the Deason Criminal Justice Reform Center. She served as the Editor and Symposium and Events Director for the *SMU Science and Technology Law Review*. Sasha also served as a law clerk at an immigration law firm based in San Francisco, California and a legal extern in the Plano, Texas office of the operating subsidiary for a Japanese multinational automotive manufacturer in Canada, Mexico, and the United States.

Sasha is fluent in Urdu and Hindi.
