Client Spotlight | Diné College STEM Program Secures Second Patent

November 22, 2024

We are proud to have represented Diné College in securing the School of STEM's second patent, marking a historic milestone as the first and second patents ever granted to a Tribal College or University.

"Our collaboration with Kilpatrick Townsend & Stockton has been crucial from the onset, providing the legal framework and guidance necessary to navigate the complexities of patent acquisition," Dr. Makeyev noted. President Roessel also emphasized the importance of this milestone, stating, "Securing these patents is a testament to our commitment to innovation and the development of a technology transfer center that will transform our patents into a sustainable revenue stream."
