### Services

Asset Creation - Prosecution & Counseling

Intellectual Property

Patents

### Industries

Health & Life Sciences

Medical & Surgical Devices

Khoivu Nguyen focuses his practice on the preparation and prosecution of patent applications primarily in the fields of medical and mechanical devices.

While attending the University of Houston Law Center, Khoivu worked with the firm as a summer associate in 2025. He also worked as a law clerk for a probate and family law attorney as well as a real estate attorney, both based in Houston, Texas. Khoivu was an Articles Editor for the *Houston Journal of Health Law & Policy*. He participated in the school's Death Penalty Clinic and was Secretary of the Intellectual Property Student Organization.

Prior to attending law school, Khoivu worked as a medical assistant at a long-established orthopedic clinic in Baton Rouge, Louisiana, where he assisted doctors and medical technicians to provide patient care.

While attending Louisiana State University, Khoivu was a research assistant at the Laboratory for Equine and Comparative Orthopedic Research (LECOR) in its School of Veterinary Medicine; he was involved with multiple research studies and was part of a team that designed a neotissue injection device. Khoivu was also a student worker at Louisiana Sea Grant, a NOAA-funded college program that promotes stewardship of Louisiana's coastal resources based at Louisiana State University.

Khoivu is a co-inventor on a patent titled “Device for Viable Neotissue and Stem Cell Transplant and Methods of Injection” (US12758712B2, issued on October 13, 2026).
