Cannabis Guide for the USA & Canada (Texas)

The Meritas US & Canada Cannabis Guide

September 30, 2021

Written by **John D. Robinson**

The legal landscape associated with the emerging cannabis industry in the United States and Canada can be confusing. In the US, cannabis remains a Schedule I drug, and therefore illegal on the federal level. However, most US states have some form of medical and/or adult-use cannabis law in place. In Canada, the third anniversary of cannabis legalization, in fall of 2021, will see the start of a legislative review of the Cannabis Act and its impact on public health, potentially leading to significant policy and legislative changes. *The Meritas US & Canada Cannabis Guide*, a comprehensive overview of national, local, and tribal laws affecting the cannabis, hemp, and CBD industries, will help companies navigate this high-potential but risky business.
