Generative AI E-Discovery Tools and the Importance of Prompt Engineering

LitSmart E-Discovery Blog

September 30, 2024

Written by **Starling Underwood**

The explosion of LLMs (large language models) and other Generative AI tools designed to increase workplace efficiency and productivity has created a new lexicon of jargon and definitions. The term “Prompt Engineering” may be the most widely used new term to describe the method of using LLMs and Generative AI tools.
